

Instant Buffers

Convenient - prepackaged pouches

Add water, dissolve and adjust to final volume

Pre-adjusted pH - no need for titration

Be eco-friendly!

Shipping liquid buffers around the world impacts the environment. Liquid buffers are typically transported using ships, which are responsible for 3% of worldwide CO₂ emissions.

Help us reduce CO₂ - one box of 20 pouches weighs less than 500 grams, compared with 20 kg for the same amount of liquid buffer!

Each box contains 10 or 20 individual pouches. Simply empty the contents of a pouch into a suitable beaker and add water. Stir to dissolve completely and adjust to the final volume.

Buffers for biochemistry

Cat-No.	Product	Size
8005011	Instant PBS buffer (1 liter per pouch)	1 box (20 pouches)
8015121	Instant PBS-T buffer (1 liter per pouch)	1 box (20 pouches)
8015141	Instant TBS buffer (1 liter per pouch)	1 box (20 pouches)
8015131	Instant TBS-T buffer (1 liter per pouch)	1 box (20 pouches)
8015171	Instant HEPES buffer (1 liter per pouch)	1 box (10 pouches)
8015081	Instant MES buffer (1 liter per pouch)	1 box (10 pouches)
8015091	Instant MOPS buffer (1 liter per pouch)	1 box (10 pouches)

Buffers for DNA gel electrophoresis

Cat-No.	Product	Size
8025051	Instant TBE buffer (1 liter per pouch)	1 box (10 pouches)
8025041	Instant TAE buffer (1 liter per pouch)	1 box (20 pouches)

Buffers for Western blotting

Cat-No.	Product	Size
8015161	Instant semi-dry transfer buffer (1 liter per pouch)	1 box (20 pouches)
8015151	Instant TBS-T blocking buffer (100 ml per pouch)	1 box (20 pouches)
