

CUSABIO Best Sale Stock Proteins

Are you still struggling to find a less common protein on the market?

Have you ever met a protein that is hard to find, but it is so pricey when you finally got one?

Have you ever given up purchasing a protein because of the long delivery time?

CUSABIO has 321 proteins in stock

CUSABIO is a ten years' old brand, which is specialized in the production of high quality antibodies, recombinant proteins and molecular biology products. We have established five recombinant expression systems from prokaryotic to eukaryotic, including cell-free expression system. Now we have more than 321 active proteins, Over 1012 recombinant proteins in stock, and has successfully developed more than 5850 recombinant proteins, including cytokines, hormones, enzymes, viral antigens, allergens, human disease-related proteins, plant and microbial proteins, etc.

◎Purity>90%	◎Competitive price
◎Short delivery time	◎Complete datasheet
◎Standard COA report	◎Liquid & Lyophilized form available
◎Proteins with different sizes (10ug, 20ug, 50ug, 100ug, 200ug, 500ug, 1mg, ect)

Optimized and efficient expression

Transformed vector, improved experiment process, to get a high yield in a short time.

Advanced technology and experimental apparatus

We can choose the most suitable equipment to express proteins according to customer's demand in the shortest time.

Strict quality control standards

Strict QC procedure to guarantee standard COA report for each purified protein.

Guaranteed after-sales service

Standard feedback form for after-sales problem, 100% guarantee to solve customer's problem.

With successful experience for more than 5850 recombinant protein preparations
