

## ***E. cloni*® Competent Cells**

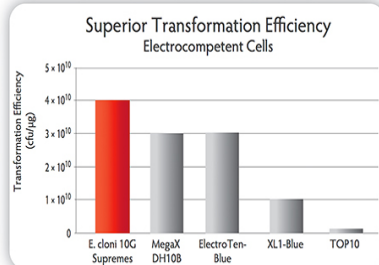

Would you rather make your next discovery  
or make competent cells?

### **Lucigen offers:**

**Direct replacement** for common cloning strains (e.g. DH10B, Top10, DH5alpha, XL1-Blue)

**Optimized genetics:** phage T1 resistant, endonuclease and recombination minus, blue/white screening-capable

**Wide range** of transformation efficiencies (from  $1 \times 10^6$  to  $4 \times 10^{10}$  cfu/ug)

### **Choose your application:**

**High efficiency library cloning:** *E. cloni*® 10G SUPREME electrocompetent cells

- Highest transformation efficiency achievable ( $4 \times 10^{10}$  cfu/ug)
- Available as single reactions, duos or sixpacks
- Custom dispensing and bulk quantities available

**CRISPR, large or difficult fragment cloning:** Endura electrocompetent cells

- Clone unstable sequences with reliable results
- Direct replacement for Invitrogen Stbl3™ and Agilent SURE strain
- Efficiencies up to  $1 \times 10^{10}$  cfu/ug

**Standard subcloning:** *E. cloni*® 10G chemically competent cells

- Ideal for routine subcloning ( $1 \times 10^6$  cfu/ug)
- Available as single reactions or DUOs
- Unbeatable price!

## Lucigen

Product No.	Product	Size	Competency
60081-2	<i>E. coli</i> ® 10G SUPREME SOLOs Electrocompetent	24 rxns	4x10 <sup>10</sup> cfu/ug
60080-2	<i>E. coli</i> ® 10G SUPREME DUOs Electrocompetent	24 rxns	4x10 <sup>10</sup> cfu/ug
60241-2	Endura SOLOs Chemically competent	24 rxns	1x10 <sup>7</sup> cfu/ug
60108-2	<i>E. coli</i> ® 10G Subcloning grade Chemically competent	96 rxns	1x10 <sup>6</sup> cfu/ug

## Competitor TF

Product	Size	Competency
OneShot™ TOP10™ Electrocompetent	20 rxns	1x10 <sup>10</sup> cfu/ug
ElectroMax™ DH10B™ Electrocompetent	25 rxns	1x10 <sup>10</sup> cfu/ug
OneShot™ Stbl3™ Chemically competent	20 rxns	1x10 <sup>8</sup> cfu/ug
DH5alpha™ Subcloning efficiency Chemically competent	40 rxns	1x10 <sup>6</sup> cfu/ug

## Ordering Information

Product No.	Product	Size	Competency	Price (CHF)
60080-2	<i>E. coli</i> ® 10G SUPREME electrocompetent cells	24 rxns	4x10 <sup>10</sup> cfu/ug	683.00
60107-2	<i>E. coli</i> ® 10G, chemically competent cells	24 rxns	1x10 <sup>9</sup> cfu/ug	310.00
60240-2	Endura, chemically competent cells	24 rxns	1x10 <sup>7</sup> cfu/ug	409.00
60108-1-2	<i>E. coli</i> ® 10G subcloning grade, chemically competent	96 rxns	1x10 <sup>6</sup> cfu/ug	201.00

Prices are exclusive VAT and shipping and are subject to change without notice.
